Smart Winch Insight

Smart Winch is a powerful and intelligent winch that is / will be available in the Imenco Insight series. The winch is produced in weather-resistant materials and has brackets for flexible attachment to various cage systems. The winch can be remotely controlled via Ethernet using a separate control unit or by local switches.

The winch motors have stainless steel shaft and are equipped with motor brake. The user can set the winch to move the camera to a preset positions for depth (z) and length (x) in the cage using the new Imenco Insight software.

Three preset positions are available in the software home, feeding and dead fish. The user can also create and save all kinds of positions, and schedule "Events" to drive the winch automatically to a set position.

Specifications	
Dimensions W x H x L	366 x 255 x 335 mm
Material housing	POM
Material bracket	Aluminium
Max rope capacity 3mm rope	90 m
Pull force - Travers	30 kg
Pull force - Lift	30 kg
Minimum holding force	> 50 kg
IP rating	IP67
Power	24VDC / 410W
Weight kg	14,8 kg
