

Imenco Gemini

HD IP PTZ stereo
Feeding and
Inspection
Camera

Using only the best available modules this camera delivers the best possible underwater images. Combined with Imenco's own user-friendly software this system gives you a brand new and never seen before overview of your fish.

Building on 30 years' experience of developing high class subsea cameras, Imenco has now developed the next generation feeding and inspection camera for the Aquaculture industry.

PRODUCT FEATURES

Double IP colour camera

- High sensitivity / Colours in dense surroundings
- Integrated sensors
- State of the art technology
- Software client
- 360° viewing angle

- Ethernet: 100/1000Mbit TP
- Ethernet video streaming protocol: RTSP
- Ethernet Control protocol: ONVIF
- Video compression:
- H.264 AVC up to 8Mbps (x2)
- Video resolution: 1080p@25

PRODUCT SPECIFICATIONS

Configuration	1080p zoom colour camera up & down
Pan	360° continuous
Tilt	±90°
Optical zoom	33X
Angel of view at zoom 1x	61,2°
Sensitivity colour	0,002 Lux
Dimensions	Ø237 x 562
Materials	POM / Bronze
Depth rating	100 meter
Standard connector	SubConn DBH13
Power	24VDC / 40 W
Weight in air	19 kg
Weight in sea water	2 kg
Depth sensor	Standard
Temperature sensor	Standard
O2 sensor	Option
